This tutorial provides a step by step guide on how to create a special block for the ezflow extension on ezpublish.

Step 1

Go to location and open file **extension>ezflow > settings > block.ini.append.php**

insert entries

```
AllowedTypes[]=HelloWorld
```

```
[HelloWorld]
```

```
Name=Hello World
```

```
ManualAddingOfItems=disabled
```

```
ViewList[]=hello_world
```

```
ViewName[hello_world]=Hello World
```

Step 2

Go to location and open file **settings > siteaccess>(your site name) > override.ini.append.php**

Insert Entries

```
[HelloWorld]
```

```
Source=block/view/view.tpl
```

```
MatchFile=block/hello_world.tpl
```

```
Subdir=templates
```

```
Match[type]=HelloWorld
```

```
Match[view]=hello_world
```

Step 3

Ezpublish Ezflow special block (Hello World)

Written by Zhiwen Teh

Thursday, 26 February 2009 11:59

Go to location and create file **extension > ezflow > design > ezflow > override > templates > block > hello_world.tpl**

Insert Entries

Hello World

Step 4

- Log into your **ezpublish administrator control panel** and navigate to **setup**
- clear your cache

Step 5

Done.

You will be able to include this newly created special block Hello World the next time you edit your front page content object.
